

NASA Glenn Research Center Announces 2021 Girls in STEM Virtual Event

Girls in STEM is a virtual event designed to spark middle school student interest in STEM fields

Learn about NASA Glenn Research Center's role in the Artemis Program

Meet female NASA STEM professionals and learn about their careers

Take a virtual tour of a NASA Glenn facility

Participate in a hands-on STEM activity during the event

Get an inside look at how NASA is preparing to send the first woman and the next man to the Moon

July 16, 2021
10:00 a.m. to 12:00 p.m.

Key Registration Dates

Opens—April 6, 2021 • Closes—June 18, 2021

Due to software limitations, the event will be limited to the first 80 registrations received.

For eligibility requirements and registration information, please visit <https://www.nasa.gov/centers/glenn/stem/one-day-stem-events/girls-in-stem-2021/>

Pushing Boundaries Breaking Barriers
