

If you have taken CCP courses and will be attending a different college or university than where you took CCP course(s), you will need to request your official college transcript. You will have your CCP courses reported for high school credit on your high school transcript, but if you want college credit you will need to send your college transcript to the college you will be attending.

There is normally a small charge that goes along with ordering an official transcript. We recommend you order 2. One for the college you will be attending and one for your personal records. Unfortunately, there is no fee waiver for official transcripts.

Below are the direction on how to request your official transcript from each College Princeton High School has partnered with:

Hocking College: <https://www.hocking.edu/transcript-request>

Sinclair Community College:

<https://www.sinclair.edu/services/welcome-center/registration-and-student-records/student-records/transcripts/>

Cincinnati State:
