

Heckman Summer Work

Each of the classes listed below needs to join the Google Classroom using the code you'll find below no later than June 5, 2020 and complete the assignment. After June 5, 2020, check Google Classroom once a week for any updates and additional assignments.

Youth Built Change Research Class:

Class code: 7szklh

AP Biology:

Class code: 3lrzox6

IB Biology:

Class code: rkovsri

Parents of these students, please feel free to join the Google classroom as well. The work assigned during the summer will not be due until August when we return to school (hopefully, together - you'll find as we work together, I'm an eternal optimist!). I will be checking my school email 2-3 times a week this summer if you need to contact me.

I am looking forward to working with your students in the upcoming school year.
